BW Papersystems marks milestone with 200th Twin Box Slitter to Green Bay Packaging

Innovative machine is recognized for production efficiency and precision

Green Bay Packaging installs the 200th Twin Box Slitter.

PHILLIPS, Wis. — Oct. 31, 2024 — [BW Papersystems](http://bwpapersystems.com) is proud to announce that [Green Bay Packaging](http://greenbaypackaging.com) in Lebanon, Ohio, a corrugated box manufacturer, has recently purchased the 200th Twin Box Slitter®. This marks a significant milestone for the popular machine, recognized for its precision, efficiency and contribution to optimizing box-making production lines. The Twin Box Slitter has become an industry favorite for the versatility it brings to production by expanding the product range box makers can manufacture with a mid-size Flexo Folder Gluer.

The Twin Box Slitter is a unique converting machine. The addition of a Twin Box Slitter enables box plants to double the production of Flexo Folder Gluers by running two-up boxes. These boxes are slit by the Twin Box Slitter, creating two boxes. Once the boxes are separated, they are ready to be bundled. This process allows manufacturers with

a mid-sized Flexo Folder Gluer to efficiently create a wide range of corrugated box sizes, from very small to large, on one machine with the potential to double productivity at the same time.

Green Bay Packaging joins a growing list of companies that have enhanced their manufacturing processes by integrating this highly productive equipment into their operations.

BW Papersystems remains committed to delivering innovative and reliable solutions to support the evolving needs of the corrugated box industry.

ABOUT BW PAPERSYSTEMS

BW Papersystems, part of Barry-Wehmiller, combines innovative technologies and long-standing global experience in the corrugating and finishing, sheeting and packaging, folding carton and paperboard, and stationery and security-documents industries. We offer market-leading technology for full corrugators in a variety of configurations, rugged rotary die cutters and flexo folder gluers, as well as starch-mixing systems. Customers rely on us for web-fed die cutting systems, and folio-size, cut-size and digital-size sheeting and packaging of paper, board and other materials. In addition, BW Papersystems' portfolio includes stationery, passport production and specialized paper-converting applications, as well as RFID processing technology. For more, go to bwpapersystems.com.

ABOUT BARRY-WEHMILLER

Barry-Wehmiller is a diversified global supplier of highly engineered capital equipment and consulting services for a wide variety of industries. By blending people-centric leadership with disciplined operational strategies and purpose-driven growth, Barry-Wehmiller has become a \$3.6 billion organization with more than 12,000 team members united by a common belief: to use the power of business to build a better world. CEO Bob Chapman shares the story of the company's transformation in his book, [Everybody Matters: The Extraordinary Power of Caring for Your People Like Family](http://everybodymatters.com).
