# Paper Converting Machine Company announces new Fusion Compact press

Green Bay, Wis., October 27, 2015, — PCMC, a worldwide leader in the design and manufacture of inline and CI presses, announced today that it will unveil a new Fusion Compact (C) Press.

The new Fusion C press will be loaded with the same fast make-ready and waste saving features as PCMC's Fusion family of products. – but with a smaller footprint (44' L x 19' W x 14' H). The new 8 or 10 color gearless sleeved press

will have a 12" - 30" repeat range, 1000 FPM (305 MPM), and 42" / 1040 mm maximum web width.

"Our new Fusion Compact press was created from listening to our clients' changing needs. The Fusion Compact addresses today's pressures of running short-run work," said Rich Rogals, sales director at PCMC. "The Fusion C will be a tremendous tool for the print industry and I am thrilled to offer this to our customers. As with all of our products, PCMC offers a superior level of technical service, support and training, making an implementation completely seamless."

The first Fusion C will begin production in January, and PCMC plans to have an open house to demonstrate the new machine in late July.

## ABOUT PAPER CONVERTING MACHINE COMPANY (PCMC)

Paper Converting Machine Company (PCMC) specializes in the design and manufacture of high-performance converting machinery for the global tissue, nonwovens, package printing and envelope manufacturing industries. Its comprehensive product offering includes rewinding, laminating, printing, embossing, perforating and packaging equipment for tissue and towels; folding and converting machines; and a complete range of flexographic printing presses serving the flexible packaging, prime label and carton converting industries.
