Accraply introduces Sirius MK6, a compact, efficient pressure-sensitive labeler *Modular labeling solution saves time and reduces waste with toolless changeovers and smart HMI*

Accraply's Sirius MK6 modular labeler is ideal for the pharmaceutical, food, contract packaging, automotive and industrial industries.

MINNEAPOLIS — Jan. 12, 2021 — Accraply, a worldwide leader in the design and manufacture of label application systems, has introduced the [Sirius MK6](#), a heavy-duty, modular labeler designed for high-speed label applications. With repeatable, toolless changeovers, the Sirius MK6 reduces waste and saves time.

Designed for label applications with advanced machine capability requirements, the Sirius MK6 includes Accraply's SmartLink HMI, providing easy access to efficiency reporting, preventative maintenance alerts and self-diagnosing software. Through this next-generation smart HMI, overall equipment effectiveness can also be measured, allowing operators to easily identify and order parts.

Joining the [Sirius 100](#) and [Trine](#) modular labeling station, the Sirius MK6 is one of three labeling innovations engineered by Accraply in 2020. Jamie

Clark, Accraply's Pressure-Sensitive Product Line Leader, introduced the Sirius MK6 at the PACK EXPO Connects virtual trade show in November.

"The Sirius MK6 is designed for easy onboarding and operation," Clark said. "Its operator interface includes video tutorials to walk you through setting it up, scheduling maintenance tasks to prevent breakdowns and using full servo integration to eliminate wear parts."

Combined with the Comet series applicator, the Sirius MK6 provides precise, consistent label placement that is ideal for the pharmaceutical, food, contract packaging, automotive and industrial industries.

Accraply is one of several Barry-Wehmiller companies represented in [BW Packaging Systems](#), which brings together the collective packaging capabilities of Accraply, BW Flexible Systems, BW Integrated Systems, Pneumatic Scale Angelus and Synerlink.

ABOUT ACCRAPLY

Comprised of the Accraply, Graham & Sleevit, Harland, Stanford and Trine brands, Accraply unites some of the most trusted names in product decoration and material converting. Known for our cutting-edge technology and innovative custom-engineered designs, Accraply has been credited with many industry firsts, and advances in application and converting technologies. Accraply, a Barry-Wehmiller Packaging Systems company, is a worldwide leader in the design, manufacture and support of pressure-sensitive (self-adhesive), roll-fed and shrink sleeve label application systems, as well as converting and finishing equipment, for the shrink sleeve and flexible-packaging markets. For more, go to accraply.com.

ABOUT BARRY-WEHMILLER

Barry-Wehmiller is a diversified global supplier of engineering consulting and manufacturing technology for the packaging, corrugating, sheeting and paper-converting industries. By blending people-centric leadership with disciplined operational strategies and purpose-driven growth, Barry-Wehmiller has become a \$3 billion organization with nearly 12,000 team members united by a common belief: to use the power of business to build a better world. CEO Bob Chapman shares the story of the company's transformation in his book, [Everybody Matters: The Extraordinary Power of Caring for Your People Like Family](#).
