Baldwin partners with Blutec S.A. de C.V. to serve Mexico's textile industry *Collaboration will introduce company's innovative precision spray finishing to new customers*

Baldwin's precision spray technology is designed to save customers time, money and resources.

ST. LOUIS — Feb. 9, 2022 — Baldwin Technology Company Inc. has forged a new partnership with [Blutec S.A. de C.V.](http://blutec.com.mx), which now represents Baldwin's full range of innovative spray systems and corona/plasma treaters for wovens, knits and nonwovens in Mexico.

Blutec is a leading agency in the textile sector, representing many of the most reputable textile machinery manufacturers worldwide. Present in the Mexican market for more than 25 years, Blutec is committed to collaborating with companies on the forefront of textile manufacturing technology, including Brückner, Mahlo, EFI Reggiani, Ferraro and, now, Baldwin.

“We are pleased to partner with Blutec in Mexico,” said Rick Stanford, Baldwin's Vice President of Global Business Development for textiles. “We find that this organization has an excellent reputation in the Mexican textile industry, with a portfolio of machinery principals that provides excellent synergy for Baldwin and our product lines. We're extremely excited to be onboard.”

Added Daniele Uslenghi, Blutec's General Manager: “The textile industry in Mexico is looking for solutions to help reduce manufacturing costs. Baldwin's precision spray technology provides savings in energy, water and chemistry.”

[Baldwin's precision spray systems](http://baldwintech.com) for finishing and remoistening use non-contact spray technology to provide optimal controlled coverage of the exact amount of liquids needed to achieve the specific characteristics of the fabric—saving customers time, money and valuable resources. Because only the required amounts of water and chemicals are applied, water consumption can be reduced by up to 50%, contributing to considerably improved productivity in the finishing process.

In addition, these solutions can process a wide range of low-viscosity water-based chemicals—such as softeners, antimicrobial agents, durable water repellents, flame retardants and more—for woven fabrics, knitted textiles and nonwovens.

Visit baldwintech.com/for-textiles or blutec.com.mx, or e-mail Blutec at info@blutec.com.mx to learn more about Baldwin's offerings in Mexico.

ABOUT BALDWIN TECHNOLOGY COMPANY INC.

Baldwin Technology Company Inc. is a leading global manufacturer and supplier of innovative process-automation equipment, parts, service and consumables for the printing, packaging, textile, plastic film extrusion and corrugated industries. As a total solutions provider, Baldwin offers our customers a broad range of market-leading technologies, with a focus on improving the economic and environmental efficiency of production processes. Through a global footprint of 21 company-owned locations and an extensive network of partners, our customers are supported globally, regionally and locally by dedicated sales and service team members who add value by forming long-term relationships. Baldwin is privately owned by BW Forsyth Partners, a Barry-Wehmiller company. For more, visit baldwintech.com.

ABOUT BW FORSYTH PARTNERS

BW Forsyth Partners is the investment arm of multibillion-dollar global manufacturing and engineering consulting firm [Barry-Wehmiller](http://barry-wehmiller.com). Established in 2009, BW Forsyth Partners blends Barry-Wehmiller's unparalleled legacy of value creation and people-centric culture development with keen investing experience to help companies realize their true potential. With a focus limited to areas known well, BW Forsyth Partners seeks to partner with leadership teams to acquire small- to middle-market companies in the capital and component equipment, and professional services sectors. In each of our operating companies, BW Forsyth Partners deploys operational improvements and strategy development without compromising the autonomy, strategic vision and entrepreneurial spirit of their leadership teams.
