BW Packaging announces 2025 lineup for PACK EXPO Las Vegas

Renowned Angelus, Hayssen, Pneumatic Scale and Thiele solutions to be featured in booth W-3100

BW Packaging will exhibit Angelus, Hayssen, Pneumatic Scale and Thiele solutions at PACK EXPO Las Vegas in booth W-3100.

ST. LOUIS — Aug. 19, 2025 — [BW Packaging](#), Barry-Wehmiller's packaging machinery group, has announced its packaging machinery lineup for PACK EXPO, which will be held in Las Vegas Sept. 29–Oct. 1. This year, BW Packaging will feature many of its popular solutions and beloved machinery brands, including Thiele for bag filling, Hayssen for flow wrapping and vertical form-fill-seal bagging, Angelus for seaming and Pneumatic Scale|Angelus for craft beverage canning lines at [PACK EXPO Las Vegas booth W-3100](#).

"We're excited to reconnect with existing customers and welcome new ones at PACK EXPO 2025 in Las Vegas — a premier gathering place to exchange ideas, explore challenges and have meaningful dialogue with our customers," said Rachana Creeth, President of BW Packaging. "Such dialogue lays the groundwork for enduring collaboration and lasting partnerships."

For craft brewers, BW Packaging will exhibit its [Pneumatic Scale | Angelus CBR 12/3 Rotary Counter Pressure Canning System](#), engineered for precision filling and seaming of cans at speeds up to 250 cans per minute. Positioned nearby, the [Angelus 12V Seamer](#) offers food and beverage producers high-speed seaming (400-1,800 CPM) for cans with diameters between 200-300 mm.

A recurring PACK EXPO crowd pleaser, BW Packaging will also bring its [Hayssen ISB VFFS Bagger](#), which now comes with an optional stainless steel motor for improved machine hygiene. Ideal for cheese, fresh produce and individually quick frozen products, the ISB is the industry-leading vertical form-fill-seal solution for consumer packaged goods requiring a more intelligent, sanitary bagging solution.

In addition, the [Hayssen R300 Flow Wrapper](#) will make its PACK EXPO Las Vegas debut, offering baked goods producers an ideal solution for robust, hand-fed flow wrapping that maximizes uptime and minimizes cleaning time.

BW Packaging will also exhibit the new [Thiele UltraStar G2 Bagger](#), whose predecessor has become a power horse solution for pet food and animal feed producers throughout North America. Capable of filling and sealing bags at speeds up to 38 bags per minute, this re-engineered Thiele bagger includes several upgrades that enhance long-term productivity and reduce maintenance costs.

Finally, each of BW Packaging's machines will feature the [award-winning OpView™ human-machine interface](#). This user-friendly interface empowers consumer packaged goods companies to overcome operational challenges related to the scarcity of skilled labor.

Additional information on these solutions and more can be found at [BW Packaging's PACK EXPO exhibitor profile](#).

ABOUT BW PACKAGING

BW Packaging is Barry-Wehmiller's packaging machinery business, which offers a comprehensive range of filling, closing, labeling and end-of-line solutions, as well as fully integrated packaging lines.
