Flow wrapping system highlights Hayssen presence at Gulfood Manufacturing

DUNCAN, S.C. — Oct. 24, 2016 — Hayssen Flexible Systems — part of the Barry-Wehmiller family, and a dominant player in the candy, nut, bakery, snack food, frozen food, fresh produce and cheese industries — will present key innovative solutions at the Gulfood Manufacturing trade show, held Nov. 7-9, 2016, in Dubai, United Arab Emirates. The KayDee Solutions stand (B3-32) will include Hayssen’s Merlin Blu flow wrapper and Novus 350 continuous motion bagger, and the AltroniX Solutions stand (F1-12) will host a Hayssen display as well.

From the Rose Forgrove line, the [Merlin Blu flow wrapper](#) (pictured, left) has a hygienic design suitable for a wide range of challenging industries. With tool-less removal of guarding, the Merlin offers easy access for cleaning. Its sloped tops and rounded legs minimize debris buildup, plus, a “no product, no bag” feature minimizes film waste.

Also shown in the KayDee Solutions stand, the [Novus 350 continuous motion bagger](#) (pictured, right) has a slim-line footprint to save valuable floor space, and the fully enclosed stainless steel construction offers environmental protection. Available in 250, 350 and 380 models, all of which have modular assemblies for quick changeover and improved accessibility, the Novus has the ability to run at various speeds and accommodate a variety of bag styles, with full configuration available for polyethylene or heat seal applications.

“We are very excited to show one of Hayssen’s most notable products, the Merlin Blu flow wrapper, at Gulfood Manufacturing,” stated Dan Minor, Hayssen Vice President, Sales and Marketing. “With its straightforward setup features, the Merlin provides fast, repeatable changeovers for customers. In addition, we are proud to present the low-maintenance Novus 350, a high-speed leader offering the latest in continuous motion technology.”

Hayssen is one of a number of Barry-Wehmiller companies represented in BW Packaging Solutions. Through their diverse capabilities, these companies can provide a single piece of equipment to fully integrated, tailor-made packaging line solutions for a wide range of industries, including: food and beverage, personal care, container manufacturing, pharmaceutical and medical devices, household products, paper products and textiles, industrial and automotive, and converting, printing and publishing.

ABOUT HAYSSEN FLEXIBLE SYSTEMS

Hayssen Flexible Systems is a global manufacturer of flexible packaging systems that fill and bag thousands of food products, including candy, coffee, frozen food, cheese, produce, snacks, bakery and pet food, as well as a wide range of non-food products. Our packaging systems are designed and manufactured to maximize the efficiency and lifetime value of our customers’ packaging lines.
