Forno Miotti Packages “Little Bites of Heaven” with Hayssen Flow Wrapper

DUNCAN, SC — April 5, 2016 — Italy-based Forno Miotti recently installed a Hayssen Schib CO50 packaging machine to support growing demand for their bakery products. Forno Miotti is a family-owned bakery established near Padua. Forno Miotti’s specialties are artisanal fruit tarts, full of flavor and fragrance, like homemade cakes, described by the bakery as “little bites of heaven.” Schib is a member of the Hayssen Flexible Systems’ family of packaging companies.

Luca Tabaschi, production manager, explains his decision to turn to Schib. “In up-scaling our production we needed a dependable packaging machine that could offer us enough flexibility to pack our tarts selection. We opted for Schib because of their experience in the bakery industry. The Schib CO50 machine is extremely well-built and it ensures that we are able to meet our increased production requirements.”

Fharid Peron, sales executive at Schib, comments: “We are very proud to be part of the fantastic growth of Forno Miotti, an outstanding example of the Italian dedication to quality.”

ABOUT HAYSSEN FLEXIBLE SYSTEMS

Hayssen Flexible Systems specializes in advanced flexible packaging technologies and services for a broad range of markets worldwide and is a dominant player in the candy, nut, bakery, snack food, frozen food, fresh produce and cheese industries. From its U.S.-based packaging technology center and packaging laboratory, Hayssen Flexible Systems remains at the leading edge of technology in its field, developing new advancements in vertical and horizontal form/fill/seal packaging machinery, horizontal flow wrapping machinery and computer combination weighing technology.
