# PCMC partners with Bedford Paper to deliver full tissue converting and packaging line

Green Bay, Wis. – Nov. 18, 2016 – Paper Converting Machine Company (PCMC), part of Barry-Wehmiller, will partner with [Bedford Paper](http://Bedford Paper) in 2017 to provide a full tissue converting and packaging line for its facility in De Pere, Wisconsin.

This project will give Bedford Paper a complete solution for retail and away-from-home small bath tissue and towels, allowing the company to become a full-service converting facility. The line will feature PCMC's Forte Ultra high-speed rewinder and XF wrapper, along with the two newest members of the company's equipment lineup, the Omnia and MultiPacker.

An embossing/laminator platform, PCMC's Omnia was developed to provide the best web handling and product quality, outstanding ergonomics, and smart and quick grade change—all with the lowest space footprint ever in its category.

The MultiPacker is a combination case-packer and bundler, giving customers the flexibility and simplicity to adapt their line layouts to meet the rapidly changing needs of their businesses. It features pick and place technology, which minimizes product handling and opportunities for jams.

This effort marks the second time PCMC and Bedford Paper will partner on a tissue line, demonstrating the solid relationship that continues to grow between the two companies.

"We take pride in our ability to build trust with our customers," said Jason Hilsberg, Tissue Sales Director at PCMC. "This project proves that. We've been able to nurture this relationship by understanding expectations and then performing to them, while introducing new technology that the market hasn't seen before. Ultimately, we're helping fuel our customer's success, which is always exciting."

**Bedford Paper (BP)** manufactures tissue paper products for the Away From Home and At Home markets. Its strategic focus of utilizing robotic high speed state-of-the-art converting equipment along with automation through the entire converting process ensures high quality standards at competitive operating costs. With a broad product offering of Single Roll Bath, Household towel, Jumbo Bath, Hardwound Towel, Centerpull Towel they are able to serve multiple markets. For more information, please visit [www.bedfordpaper.com](http://www.bedfordpaper.com).

## ABOUT PAPER CONVERTING MACHINE COMPANY (PCMC)

Paper Converting Machine Company (PCMC) specializes in the design and manufacture of high-performance converting machinery for the tissue, nonwovens, package-printing and envelope-manufacturing industries worldwide. Our comprehensive product offerings include rewinding, laminating, printing, embossing, perforating and packaging equipment for tissue and towels; folding and converting machines; and a complete range of flexographic printing presses, serving the flexible-packaging, prime-label and carton-converting industries.
