PCMC announces summit to showcase new patent-pending SteadyPrint *August 22nd event to focus on print quality and consistency*

GREEN BAY, Wis. (USA) – Aug. 1, 2018 – Registration is now open for Impact Summit on August 22, 2018, which will feature a live demonstration of the all-new SteadyPrint – Paper Converting Machine Company’s patent pending anti-bounce technology.

SteadyPrint is an enhanced design of mechanical elements that minimize the effects of forces experienced during printing. It monitors and reduces bounce in real time, reduces press vibration and noise, and allows printing through speed ranges without changing impression.

In addition to viewing SteadyPrint and a demonstration of the Meridian laser anilox cleaner, industry partners will present on the latest technologies and processes to keep print quality consistent. Speakers from Kodak, Filmquest, Praxair, Microdynamics and Wikoff will present during Impact Summit.

“PCMC always takes the time to listen and learn from the industry and our customers,” said Rodney Pennings, PCMC’s PCL Director of Sales. “This new technology is something that our customers were telling us was a need. We’re excited to be able to welcome customers into our facility to experience our latest innovation firsthand.”

The event is August 22, 2018 at PCMC’s headquarters in Green Bay, Wis. To learn more about the event or to register, please visit pcmcimpact.com. This event is made possible in part by the following sponsors:

- AV Flexologic
- Kodak
- Filmquest
- Microdynamics
- Praxair
- Wikoff

ABOUT PAPER CONVERTING MACHINE COMPANY (PCMC)

Paper Converting Machine Company (PCMC) specializes in the design and manufacture of high-performance converting machinery for the tissue, nonwovens and package-printing industries worldwide. Our comprehensive product offerings include rewinding, laminating, printing, embossing, perforating and packaging equipment for tissue and towels; folding and converting machines; and a complete range of flexographic printing presses and laser anilox cleaners, serving the flexible-packaging, prime-label and carton-converting industries. For more about PCMC, which is part of Barry-Wehmiller, go to pcmc.com.

ABOUT BARRY-WEHMILLER

Barry-Wehmiller is a diversified global supplier of engineering consulting and manufacturing technology for the packaging, corrugating, sheeting and paper-converting industries. By blending people-centric leadership with disciplined operational strategies and purpose-driven growth, Barry-Wehmiller has become a \$3 billion organization with nearly 12,000 team members united by a common belief: to use the power of business to build a better world. CEO Bob Chapman shares the story of the company’s transformation in his book, *Everybody Matters: The Extraordinary Power of Caring for Your People Like Family*.
